Career Objective

Motivated computer application student with strong Python programming skills and knowledge of backend development concepts. Eager to learn AWS cloud technologies and seeking an AWS + Python Internship to gain hands-on experience and contribute to real-world software projects.

Education

Ness Wadia College Of Commerce

Jun 2023 – Apr 2026

Bachelor of Business Administration in Computer Application (BBA-CA)

GPA – 8.94

Abeda Inamdar Junior College

Jun 2021 – Feb 2023

12th Commerce - 82.83%

Skills

Technical Skills:

- **Front-End Development:** HTML 5, CSS, JavaScript
- **Back-End Development:** Python (Flask), PHP, C++, Java, REST API's
- **Databases:** MySQL
- **CS Fundamentals:** OOPs Concepts, Data Structure & Algorithm, SDLC
- **Tools & Platforms:** Git, Github, Canva, Microsoft Office, Visual Studio

Soft Skills: Critical Thinking, Time Management, Teamwork

Experience

Imperium - Web Developer

Jan 2025 – April 2026

- Worked on live client projects, ensuring timely delivery and consistent quality.
- Managed development tasks efficiently while supporting smooth project execution.

Project & Research Work

Paw Heaven - Pet Adoption Website

- Developed a dynamic pet adoption web application using **PHP, MySQL, HTML, CSS, and JavaScript**.
- Implemented user authentication, shelter registration, and pet listing modules to streamline the adoption process.
- Enabled shelters to register and post pets, **improving listing efficiency and visibility**.
- Designed features for users to browse pets, apply for adoption, and track application status for a smoother experience.

Attendify – QR Code Based Attendance System

- Developed a camera-based QR attendance system using **Python, Flask, HTML, CSS, JavaScript, JSON, and MySQL**.
- Implemented session-specific QR codes with time limits and max-scan limits for secure attendance.
- Ensured one-device-per-student validation **using IP, device ID, and timestamp checks**.
- Built teacher dashboards to download attendance sheets and default reports separately.

HerCycle – Period & Pregnancy Tracker Application

- Developed an Android Period & Pregnancy Tracker using **Java** and **XML**.
- Implemented cycle prediction, phase tracking, and mood monitoring features.
- Built pregnancy module with baby growth tracking and reminders.
- Designed a **user-friendly** interface with **secure data handling**.

Global Travel Services – Client Project

- Developed a responsive and interactive website with strong **UI/UX design focus**.
- Implemented dynamic elements and intuitive navigation to enhance user flow.
- Created visually appealing layouts to improve overall usability and engagement.

Certifications

- Artificial Intelligence Fundamentals — IBM SkillsBuild
- SQL — HackerRank
- Cyber Security Basics Level 1 — Quick Heal

Honors & Awards

- **1st Place – Avishkar Research Competition (College Level):** Recognized for presenting an innovative research project.
- **Selected for the competitive BNY Career Catalyst Program,** focused on professional development and career growth.
